BLENDTOLEARN

ELEARNING BOOT CAMP

3 WORKSHOPS

DUBAI - NOVEMBER

INSTRUCTIONAL DESIGN 101

When it comes to designing effective and impactful training, instructional design plays a significant role in it. It takes you through the entire training process step-by-step and ensures that the content fills the gaps and increases learners' knowledge and performance. This 1- day workshop focuses on how you can apply Instructional Design processes in your current role to design effective training materials.

ARTICULATE AND VYOND

A good eLearning course always requires a good storytelling flavor into it. To design one, you must bring Articulate Storyline 360 and Vyond together. Vyond helps you to produce engaging and robust animations. Storyline 360 will help you to create interactive scenarios. This 1-day workshop will help you build exciting stories and transform them into interactive scenarios.

GET STARTED WITH ARTICULATE 360

Storyline 360 lets you create interactive and engaging training courses that look great on every device. Create just about any interaction in minutes. The 2-day workshop is straightforward for beginners yet powerful enough to handle the needs of experts.

Learning and Development Leader | Storyteller

Mohammad has 17 years of experience in Instructional Design, where he designed and developed more than 300+ eLearning courses.
He was awarded for conducting Best Instructional Design Workshop at Harvard Medical University. He also offered eLearning Consultation to EMAL – Emirates Global Aluminum, Higher Colleges of Technologies, Citrix, Google, Amazon, and Salesforce.
